DATA ANALYST | BUSINESS INTELLIGENCE | ANALYTICS REPORTING

PROFESSIONAL SUMMARY

Data Analyst and Business Analytics graduate student with experience delivering executive reporting, KPI analysis, operational analytics, and data-driven decision support across government and private-sector environments. Skilled in SQL, Power BI, Python, Excel, machine learning, data validation, and reporting automation. Proven ability to transform complex datasets into actionable insights for leadership stakeholders through dashboards, analytics, and performance reporting.

TECHNICAL SKILLS

SQL, Power BI, Python, R, Excel (Pivot Tables, XLOOKUP, Data Modeling), Dashboard Development, KPI Reporting, Executive Reporting, Data Visualization, Machine Learning, Predictive Modeling, Statistical Analysis, Data Validation, Data Quality Assurance, Reporting Automation, Business Intelligence, AI-Assisted Research, ChatGPT, Claude, Gemini, Salesforce

ANALYTICS PROJECT EXPERIENCE

Graduate Analytics Consultant | Byond LLC Client Engagement (William & Mary Capstone) | 2026

- Partnered with external client Byond LLC to develop a predictive analytics solution identifying venture capital firms most likely to be actively deploying capital.
- Built and validated a dataset of approximately 200 venture capital firms using investment, fundraising, portfolio, and market activity data.
- Queried, cleaned, transformed, and validated multi-source datasets using SQL and Python.
- Leveraged AI-assisted workflows, structured validation processes, and source verification methods to improve data collection reliability and efficiency.
- Developed and evaluated Gradient Boosting, Random Forest, and Logistic Regression models using ROC-AUC, precision, recall, F1-score, and cross-validation methodologies.
- Contributed to a Gradient Boosting Machine model achieving approximately 78% accuracy and 0.87 ROC-AUC.
- Created visualizations, scorecards, and stakeholder-facing reporting outputs translating analytical findings into business recommendations.

- Presented methodology, findings, limitations, and recommendations to client stakeholders and graduate faculty.

PROFESSIONAL EXPERIENCE

City of Newport News | Office Manager | May 2025 – Present

- Produce and maintain 5+ recurring financial, procurement, HR, and operational reports for the Purchasing Agent and departmental leadership.
- Monitor and analyze \$1.7M+ in annual departmental expenditures across multiple budgets, identifying spending trends and supporting resource planning.
- Develop KPI-focused reports and performance metrics supporting leadership decision-making and operational planning.
- Perform data validation, reporting analysis, and quality assurance using Excel, Pivot Tables, XLOOKUP, and data modeling techniques.
- Analyze operational performance, processing timelines, and customer feedback data to identify trends and improvement opportunities.
- Support reporting needs for an 18-person Purchasing Department serving all City departments through procurement and contract administration activities.
- Coordinate with legal teams, vendors, Finance, HR, and leadership stakeholders to ensure reporting accuracy and compliance.

Department of the Navy | Human Resources Assistant | September 2022 – September 2025

- Generated recurring personnel, payroll, awards, and workforce reports supporting HR operations and leadership oversight.
- Processed approximately 250–400 personnel transactions annually while maintaining high standards for accuracy and compliance.
- Built an Excel-based tracking and reporting system that significantly reduced recurring transaction errors and improved quality assurance outcomes.
- Conducted data validation reviews and reconciled discrepancies across personnel records and HR systems.
- Developed SOPs, reporting documentation, and training materials that improved operational consistency and efficiency.

Interstate Warehousing | Office Lead | September 2020 – September 2021

- Managed inventory, shipping, receivables, and operational data across warehouse management systems.
- Produced operational reporting supporting inventory control and logistics performance.
- Implemented workflow improvements that reduced documentation errors and improved operational efficiency.

- Recognized twice as Employee of the Quarter for performance and reliability.

EDUCATION

Master of Science, Business Analytics | William & Mary | Expected August 2026

Bachelor of Arts, Communication Arts & Sciences | Pennsylvania State University
